

**Colors:** Please use CMYK or Coated Pantone (PMS C) colors only.

**DO NOT** use custom named swatches as they will not be recognized by our press and won't print

The slight skew you are seeing in the shape of the label is necessary for proper application of the label to the component. There is a slight taper at the bottom of the sunstick tube, which requires a slightly skewed label to ensure proper alignment.

Do not place anything in the Overlapped Area as this will be covered up when the label is wrapped around the lip balm tube.
